

Transformative Entrepreneurship Minor

As a career-orient liberal arts college, McPherson College integrates the entrepreneurial spirit and mindset throughout its curriculum. Students who want to more intentionally develop their own entrepreneurial skills and through processes can complete the minor in Transformative Entrepreneurship.

The Transformative Entrepreneurship minor helps students better understand the risks and processes involved in beginning an entrepreneurial venture. McPherson College's minor is transformative in the sense that students who engage in future entrepreneurial ventures will make an impact and transform the world in some way.

McPherson College faculty have defined entrepreneurship as follows:

Entrepreneurship is the creative process of developing sustainable, innovative ventures that solve problems and meet the needs of the greater community. Balancing opportunity and risk, the entrepreneur manages resources and constructs solutions that benefit both self and society.
(Approved by faculty 2/3/11)

Transformative Entrepreneurship at McPherson College has a strong liberal arts emphasis. Students take three core courses specific to entrepreneurship and three courses from across at least two divisions that will enhance their knowledge and/or skill in entrepreneurial endeavors.

- Students who complete a minor in transformative entrepreneurship will be able to:
- Articulate the definition of transformative entrepreneurship
- Articulate the roles that entrepreneurs have played in history
- Identify and analyze opportunities and their related risks
- Demonstrate creative processes required to develop entrepreneurial ventures
- Determine their talents and role in effective teamwork
- Demonstrate skill in project management and resource utilization
- Demonstrate the process of resource acquisition through networking
- Illustrate the interplay of economics and social change
- Illustrate responsibility to a greater society

Transformative Entrepreneurship Curriculum

To complete the minor, students will complete the following three courses:

- ET101 Creativity and Innovation for Transformation – 3 credit hours
- G-ET201 Entrepreneurship on the Horizon – 3 credit hours
- ET301/BA235 The Entrepreneur at Work – 3 credit hours

Additionally, students will select nine hours from the following courses. Students may choose one class from within her/his major coursework area. One class must be selected from outside the division where her/his major is housed.

Humanities

- AR230 Graphic Design I
- AR340 Web-based Design
- CM130 Interpersonal Communication
- CM135 Journalism
- CM140 Public Speaking
- CM210 Multimedia Storytelling
- CM218 Bus. & Prof. Communication
- G-CM221 Intercultural Communication
- CM310 Public Relations
- CM325 Conflict Communication
- CM330 Persuasion
- EN313 Adv. Expository Writing
- PA215 Sem & Practica in Perf. & Prod.
- G-PR104 Ethics
- PR304 Brethren Hist. & Tht.
- PA215 Sem & Practica in Perf. & Prod.

Science & Technology

- NS415 Environmental Ethics
- TE301 Materials and Processes
- G-TE333 Technology & Society

Social Sciences

- BI325 Human Ecology
- PY405 Personality Theories
- SO206 Social Problems
- SO260 Intro. to Human Services

Transformative Entrepreneurship Course Descriptions

ET101 Creativity & Innovation for Transformation

3 hours

Interactive seminar introduces students to readings and processes from various disciplines that elucidate the interdisciplinary nature of creativity and enable students to create conditions that stimulate it. Projects and assignments are designed to encourage a “critical creativity” that challenges participants through inquiry, multi-faceted exploration and strategic development. Topics examined through writing and design assignments, group projects, and discussions include consciousness, receptivity, risk, ethics, self agency, and social engagement with the express objective of fostering creative potential and its application in all areas of experience.

G-ET201 Entrepreneurship on the Horizon

3 hours

Addresses the challenges of creating and sustaining organizations in today’s global environment. Provides an overview of the role and importance of entrepreneurship in the global economy and in society. Examines how individuals use entrepreneurial skills to craft innovative responses to societal needs.

ET301 The Entrepreneur at Work

3 hours

Explores the process of managing and growing the entrepreneurial venture. The course is designed to provide exposure to topics critical to the success of the venture in startup and early growth: business planning; growth management and strategic planning; marketing and financial strategies; exit strategies; and different modes of venturing, such as franchising, venture acquisition, and technology licensing.

Pre-Professional Programs

Law

All accredited law schools require a four-year bachelor’s degree for admission. The general program of the pre-law student should be planned with this fact in mind. The pre-law student, even more than other students, should be broadly versed in languages, literature, philosophy, history, religion and other traditional liberal arts. Although the pre-law student may choose a major in any field, a strong knowledge of history and economics is essential. The B.S. in History & Political Science emphasis is recommended for the pre-law student. The student should counsel with the pre-law advisor or with the heads of the departments of economics and history.

Law schools differ in admissions requirements, but the following course suggestions are representative of what a student interested in law should take in addition to the major.

BA 315 Legal Environment of Business 3 hours
 G-HI 201 U.S. History to 1865 3 hours
 G-HI 202 U.S. History since 1865 3 hours
 PS 356 American Diplomacy 3 hours
 G-PS 102 U.S Government 3 hours
 *G-PR 104 Ethics 3 hours
 PY 308 Counseling 3 hours
 SO 206 Social Problems 3 hours
 *CM 130 Interpersonal Communication 3 hours
 CM 140 Public Speaking 3 hours
 G-PR 201 Introduction to Philosophy 4 hours

Medicine, Osteopathy, or Dentistry

Students who prepare for application to medical, osteopathic or dental school should complete a baccalaureate degree in any field. The recommended degrees are biology or biochemistry, which provides the best collection of courses suggested by most medical or health professional schools. The required

courses include a minimum of the following:

G-BI 111	College Biology I	4 hours
BI 112	College Biology II	4 hours
G-CH 111	College Chemistry I	5 hours
CH 112	College Chemistry II	5 hours
CH 251	Organic Chemistry I	5 hours
CH 252	Organic Chemistry II	5 hours
BI 310	Statistical Data Analysis	4 hours
G-PH 215	General Physics I	4 hours
PH 216	General Physics II	4 hours

Other advanced courses recommended include:

BI 225	Human Anatomy
BI 315	Human Physiology
BI 325	Human Ecology, Epidemiology and Public Health
BI 360	Cell Physiology
BI 364	Cell and Molecular Biology
CH 370	Biochemistry

A faculty member of the natural science department serves as pre-health advisor and should be consulted when planning a program to meet a specific school's admission requirements.

Physical Therapy, Physician Assistant

A transition is under way in the physical therapy and physician assistant fields from training that culminates in a master's degree to programs that grant the master's or doctoral degree. Therefore, pre-physical therapy and pre-physician assistant students should first complete a baccalaureate degree at McPherson College. The recommended major is biology, which provides the best collection of courses suggested by most health professional schools. The recommended courses include a minimum of the following:

G-BI 111	College Biology I	4 hours
BI 112	College Biology II	4 hours
BI 225	Human Anatomy	4 hours
BI 315	Human Physiology	4 hours
G-CH 111	College Chemistry I	5 hours
CH 112	College Chemistry II	5 hours
G-PH 215	General Physics I	4 hours
PH 216	General Physics II	4 hours
BI 310	Statistical Data Analysis	4 hours

A faculty member of the natural science department serves as pre-health advisor and should be consulted when planning a program to meet a specific school's admission requirements.

Nursing

McPherson College has prepared many students for entrance into professional nursing programs. Nursing education varies greatly, from nine-month L.P.N. programs to two-year B.S.N. programs to even more rigorous master's or M.S.N. programs. Therefore, it is impossible to outline a generic program to prepare all pre-nursing students for these various programs. Pre-nursing students should identify what type of professional program they aspire to and then meet with McPherson College's pre-health advisor to develop a plan for completing the admission requirements of that program.

Optometry, Podiatry

Three years of college are the minimum requirement to be considered for admission to optometry or podiatry school; however, the vast majority of students admitted have completed a college degree, majoring in one of the sciences. The recommended degree at McPherson College is biology, which provides the best collection of courses suggested by most health professional schools. The basic admission requirements in the sciences may usually be met with the following courses:

G-BI 111	College Biology I	4 hours
BI 112	College Biology II	4 hours
G-CH 111	College Chemistry I	5 hours
CH 112	College Chemistry II	5 hours
CH 251	Organic Chemistry I	5 hours
CH 252	Organic Chemistry II	5 hours
BI 310	Statistical Data Analysis	4 hours
G-PH 215	General Physics I	4 hours
PH 216	General Physics II	4 hours

Other advanced courses recommended include:

BI 225	Human Anatomy
BI 234	Microbiology
BI 315	Human Physiology
CH 370	Biochemistry

A faculty member of the natural science department serves as pre-health advisor and should be consulted when planning a program to meet a specific school's admission requirements.

Pharmacy

Students preparing for a career in pharmacy may attend McPherson College for at least two years during which the following courses must be taken: 20 hours chemistry, 16 hours biology, four hours mathematics, four hours physics, and 16 hours English, economics, and other electives in the social sciences and humanities. A faculty member of the natural science department serves as pre-health advisor and should be consulted when planning a program to meet a specific school's admission requirements.

Social Work

McPherson College has well prepared its students majoring in the Behavioral Sciences for entrance into Master of Social Work (M.S.W.) degree programs. The pre-professional program at McPherson College commits itself to fostering student learning in career-oriented liberal arts so that students are prepared for community service and/or graduate study in social work. Students who have acquired knowledge and skills requisite for entry into the field of social services and graduate social work education demonstrate proficient knowledge, understanding, and application of psychological and sociological theories and concepts.

All accredited graduate programs in social work require a four year bachelor's degree for admission. The pre-social work student should plan the liberal arts program to include courses in arts and humanities, social and behavioral sciences, and biological sciences. Although the pre-social work student may choose a major in any field, a strong knowledge of human services, personality theory, counseling, and social problems is strongly recommended. The B.S. in psychology or sociology, with the health and human services emphasis is recommended.

M.S.W. programs require evidence of relevant paid/volunteer work experience related to human services organizations. The pre-social work student should therefore be prepared to complete at least one one internship or field experience related to community/social services. (The College's Career Connections program is highly recommended.)

The M.S.W. Degree prepares graduates for advances social work practices in one of three areas—*clinical social practice* with individuals, families, and groups; *social work administration/community* practice aimed at social service administration and social policy development; and school social work. With such diverse professional practice concentrations, it is difficult to outline a generic program to prepare all pre-social work students for admission to these practice areas. Students should counsel with the pre-social work advisor to help them identify the type of professional program they are considering, and to assist them in developing a plan for completing the graduate admission requirements of that program. internship or field.

Although M.S.W. programs differ in admissions requirements, the following courses, in addition to the major, are recommended for students interested in

entering the social work profession at the graduate level:

PY 405 Personality Theories 3 hours

PY/SO 308 Counseling 3 hours

SO 206 Social Problems 3-4 hours

Courses in the Health & Human Services Emphasis:

SO 260	Introduction to Human Services	3 hours
SO 365	Social Work in American Society	3 hours
PY 430	Health Psychology	3 hours
SO 470	Social Gerontology	3 hours

PY/SO 388 Career Connections 1-12 hours

PY/SO 295/495 Field Experience 1-4 hours

Veterinary Medicine

At least two years of college are required to be considered for admission into a college of veterinary medicine; however, the vast majority of students admitted have completed a college degree, majoring in one of the sciences. The pre- veterinary medicine student will plan an appropriate course of study with the help of a faculty advisor. Courses are selected to meet requirements of the specific college of veterinary medicine to which the student plans to apply. The following courses are representative of those required by colleges of veterinary medicine for students seeking admission:

G-BI 111 College Biology I 4 hours

BI 112 College Biology II 4 hours

BI 234 Microbiology 4 hours

BI 383 Genetics 4 hours

G-CH 111 College Chemistry I 5 hours

CH 112 College Chemistry II 5 hours

CH 251 Organic Chemistry I 5 hours

CH 252 Organic Chemistry II 5 hours

CH 370 Biochemistry 4 hours

G-EN 110, G-EN 111 College Rhetoric 6 hours

G-PH 215 General Physics I 4 hours

PH 216 General Physics II 4 hours

It is common for pre-veterinary medicine students to complete the bachelor of science degree before applying for admittance to veterinary school. A student electing to do so should pursue one of the programs at McPherson College that lead to a major in biology, chemistry, or biochemistry.

The Chicago Center

McPherson College students interested in exploring the vital issues facing American cities have the opportunity to participate in The Chicago Center programs. Combining classroom study with action-based internships, The Chicago Center lives up to its motto: "Chicago is our classroom." For an interterm or a semester, students receive McPherson College credit hours while they live, study and work in one of the United State's most exciting urban environments.

The Chicago Center's emphasis on "hands-on" experience helps students deepen their understanding of America's economic and political structures, race and gender relations, and the role of the arts in community and social discourse. The direct link between the classroom and the internship increases student understanding of the practical work world outside the college campus. In addition to the academic coursework, the Center provides both housing and orientation training. The latter includes practical instruction in a variety of "city smart" skills ranging from basic street safety to using the city transit system.

The Chicago Center is open to students from any field of study and internships are available in a wide range of discipline areas.

International Study

Opportunities to live and study outside the United States are available to McPherson College students. One of the programs many students take advantage of is the BCA program. McPherson College cooperates with Bridgewater College (Va.), Elizabethtown College (Penn.), Juniata College (Penn.), Manchester College (Ind.), and the University of LaVerne (Calif.) in the BCA program, which offers a year or semester of study for qualified college students at the following locations:

Athens, Greece
Barcelona, Spain
Brussels, Belgium
Cheltenham, England
Cochin, India
Dalian, China
Derry, Northern Ireland
Dunedin, New Zealand
Galway, Ireland
Marburg, Germany
Nancy, France
Pinar del Rio, Cuba
Quito, Ecuador
Sapporo, Japan
Strasbourg, France
Sydney, Australia
Szombathely, Hungary
Xalapa, Mexico

One-semester programs (both fall and spring) for sophomores, juniors or seniors are offered at all the above locations, with the exception of Marburg, Germany, which has no sophomore program.
