

Health, Physical Education & Recreation Program

Purpose Statement

The department of health, physical education and recreation commits itself to developing graduates who embrace the liberal arts philosophy and who can demonstrate a variety of skills efficiently and effectively, analyze and critique movement, and understand the interrelationship of health, fitness, and wholeness in life.

The department achieves this purpose when its graduates

- develop a personal strategy for health and fitness, emphasizing the physical domain, understanding that behaviors learned are a lifelong process.
- understand the concepts of physical education and health content and apply these concepts for the development of a physically educated individual.
- demonstrate a heightened awareness of the impact of play on the quality of life.
- meet State Department of Education standards and NCATE standards for licensure in the area of physical education and health (applies to those seeking teaching certification in physical education and health).

The department offers programs designed for teaching physical education and health in the elementary and secondary schools, graduate preparation, and a related area of special emphasis in sports management. In cooperation with the department of natural sciences, it also hosts an interdisciplinary degree in health science.
